

## PREMIUM E-TICKET PACKAGE

### Increase revenue, reduce costs and create greater customer satisfaction with our Premium E-Ticketing solution

Now your customers can buy custom-branded e-tickets from your website and use them instantly:

- No software or hardware to buy or install (requires internet connectivity)

#### Merchant Account Choices

- Use Admit One Products' merchant account with no set up fees
- Integrate your own Authorize.net or Cybersource merchant account (\$199 one time integration charge)
- Accept all major credit cards: Visa, MasterCard, American Express & Discover

#### Delivery Options

- Electronic bar coded E-Tickets your customers print at home
- Will Call option allows tickets to be picked up at the event
- Mail hard tickets and custom inserts directly to your customers

#### E-Ticket Features

- Allow more customization of fulfillment and E-Ticket pages to match your current website
  - Including colors, logos, and other graphics
- Customize your E-Ticket with revenue-generating advertising, promotions or maps
- Deliver tickets to customers via Will Call, Mail, or E-Tickets (print at home)
- No limit on the number of tickets or products sold for your event online
- Set minimums and/or maximums allowed per product per order
- Create inventory limits for products
- Sell different types of products (e.g., Adult and Child) against one inventory – perfect for limited admission
- Advance and regular ticket pricing available at no extra charge
- Use and track Promotional Codes
- Customer service and support services provided

#### Bar Codes & Scanner Features

- Proprietary encrypted barcodes for maximum security
- Compatible with multiple scanner models
- Portable and stationary scanners can be used (must be purchased separately)
- Verify type of ticket as well as its status at entrance or gate
- Perfect for events with multiple gates

#### Reports & Web Portal

- Extensive reporting and analysis
- Event reconciliation
- Reports available 24/7 online
- One-click event "wrap-up" report

#### Compared to Standard Package

- Greater customization of fulfillment and E-Ticket pages
- Allow multiple gate implementation
- Promotional Code capabilities
- Custom Merchant Account implementation
